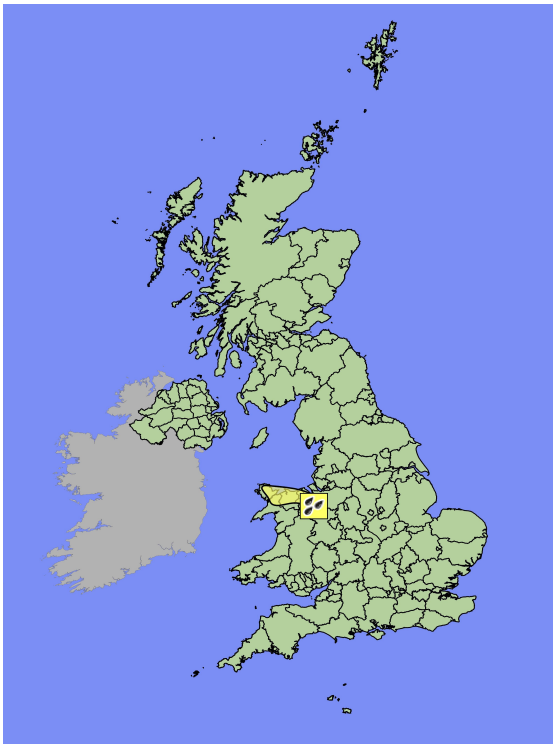
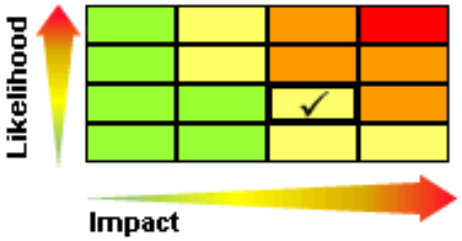
National Severe Weather Warning Service





Chief Forecasters Assessment
The remnants of Monday's rainfall will still be affecting similar areas early on Tuesday, with further impacts likely, but an improvement in terms of rainfall at least during the morning. Impacts from flooding may, of course, last longer.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **00:05 on Tue, 27th Nov 2012** until **08:00 on Tue, 27th Nov 2012**

Rain will persist towards dawn on Tuesday, before steadily becoming less heavy and persistent, leaving only scattered showers for the rest of Tuesday.

The public should be aware of the continued risk of flooding, since this rain comes on top of that which will have fallen on Monday.
